Jon García Aguado
Director UPT (Universal Professional Taekwondo)

Dear family and friends of Taekwondo, the same way a competitor fight to be the best and win, the UPT borrows trying to be the best and win, this is the reason why we have a competitive team with the needed enthusiasm for this sport.

As a founding director of UPT, which is the responsible of managing this kind of events with the hope of being world class with a professional format, which symbolically joins the lovers of this sport, who are looking for a professional branch in Taekwondo, I'm glad to introduce what is going to be the beginning of a new format respecting the WTF rules, where our main target will be promoting WTF Taekwondo in a professional way from its roots, and so our sportsmen could have, besides a media coverage and recognition, a material and economic grant for doing what they really love. Our goal is really clear, to do things step by step in order to be an organization which would promote taekwondo all over the world in an entertainment format, and who knows, can soon announce an official professionalization of taekwondo.

There will be two types of events, the ones called Start Circuit and the others called Golden Circuit

Who organizes a start Circuit event?

To organize a Start Circuit event you must be an Autonomic or National Federation, or to have the authorization from a respective federation

Who can organize a Golden Circuit event?

To organize a Golden Circuit Event you must be a National Federation or have the support of a National Federation.

By now, in 2015 we will start with a Start Circuit. There will be a series of national events organized by different federations and by the UPT.

I can now advance that these events will spread in following year and will be carried out in an other country, and if all goes well, we will be able to organize the first Golden Circuit in 2016.

Start Circuit 2015 event guide.

Start Circuit 2015

We start 2015 with three important events organized by the UPT and three more federations.

1. The Castilla y León Taekwondo Federation will host the first Professional Taekwondo Open the 13th of June .
2. The Comunidad Valenciana Taekwondo Federation will be responsible of organizing the second edition in October.
3. The Galicia Taekwondo Federation will host the final in November 2015.

On the other hand it's important to highlight that the events will be carried out with the current WTF rules, with electronic trunk protectors, replay videos and national and international referees. Nevertheless it's the entertainment format which will make this an unique event in the world.

We will provide 9 courts, 4 of which will be red and black, octogonal courts where preliminary bouts will take place. In the semifinals and finals we will use a slightly different format with sounds and lights so the viewers could enjoy taekwondo in the highest level.

WEIGHING AND ACCREDITATIONS

Weighing will take place on Friday the 12th in the organization hotel for all Pre-cadet, Cadet and Junior teams, from 17:00 to 21:00. The public weighing for the media of the senior olympic categories will take place in the pavilion at 20:00 in which they will weigh with the media, (voluntary, we have both weighing forms). In the second edition in Valencia the champions of each weight will be weighed at once. if someone from the Pre-cadet, Cadet or Junior categories exceeds the weight he stated in the pre-registration, he will be changed to a higher category. If this happens to a senior, he will have two opportunities. if someone can't get to weigh on Friday for some reason, he has to communicate this and weighing will be held from 7:15 to 7:45. You can't exceed the weight to avoid altering the group stage. As it is a tournament with awards, thoughtfulness is required in the moment of weighing of the competitors so the rules are equal for everyone.
